SYCAMORES AS A STREET TREE

Baker Bros. Price List

THIS LIST CANCELS ALL PREVIOUS LISTS

The past season has been unusually good for nursery stock. Much of it is twice as large as in ordinary years. While the price on most items is higher than usual, the stock is better and worth more money. Nursery stock all over the country is very scarce, and the demand is the greatest ever known. On account of so much rain, the ground will be in good condition for all planting. Under such conditions, fall planting is better than spring. Many nurseries have already sold everything before the planting season opens. It is safe to say there will not be enough trees this year, and the man that orders early will probably get what he wants, while the man who waits till spring may get poorer stock, or perhaps none at all. As we do not do a wholesale or agency business, but depend on local and catalogue trade for our business, we enter the shipping season with a complete stock, and believe we are better able to care for our customers than ever before. We are not issuing a descriptive catalogue at this time, but on application will send a copy of our 1918 catalogue for description only. For prices orders should be made only from this list. We deliver our trees in good condition to the transportation companies, but cannot give any guarantee as to their safe delivery or as to their growing. All prices f. o. b. Fort Worth, Texas.

The following groupings, if kept in mind, will be helpful to both you and us, as it will enable us to give better service and satisfaction.

While we endeavor to keep a general stock at all times, on certain special holidays it is not possible to have a sufficient amount of everything to supply the demand. Hence, when possible, give your preference only and allow the order to be filled with the best available stock.

Carnations are popular flowers, but as a rule it is not satisfactory to order these for any of the holidays. We can not consider any complaint whatever on carnations at any holiday season.
